## To all SOGHU Members

New clarification from the MDDEFP about the *Regulation respecting the recovery and reclamation of products by enterprises* in force since July 1<sup>st</sup>, 2013 regarding the original equipment manufacturer products (OEM).

Due to an error in drafting the Regulation, the MDDEFP came out with an important clarification to the Regulation regarding the oils used in transformers. Be advised that transformer oils is not subject to the Regulation. Members therefore do not have to pay environmental handling charges on these oils.

However, since these oils are not regulated; the Collectors will no longer receive subsidies from SOGHU for the recovery which could influence the agreements for companies that have to have these oils recovered.

We apologize for any inconvenience this property unintentional from us and we are available to answer your questions.

Thank you for your understanding
