Notice to Collectors

Promotional return incentives payed to Collection Facilities

SOGHU would like to thank all the Collectors who have registered as Collection Facility in order to provide individuals and small businesses that process their own oil changes with the opportunity to dispose of oils, filters and used oil containers for free.

SOGHU will pay return incentives directly to Collection Facilities for their filters as a way to thank and encourage them to keep offering this service.

Due to the high complexity related to monitoring and verifying the difference between collected products and products dropped-off to your location directly by small Generators **if you are a registered Collection Facility, this promotion does not apply to Collectors also registered as Collection Facility.**

SOGHU would like to thank you for your understanding, your contribution to the well-being of the environment and for your usual cooperation in making SOGHU's operations run smoothly.
